

Conscious Conference 2024

Villa Copenhagen Central Post Building,
Tietgensgade 35-39, 1704 København
www.villacph.com

Conscious Conference

At Villa, we strive to provide you with the very best experience during your events. At the same time, we can guide you to make conscious choices that will have an impact on your emissions.

- Certified Green Key and ISO14001
- Conference chairs made of ocean waste
- Conscious menus thoroughly designed by our executive chef
- Emission Impact report

Located just across Copenhagen's central station, VILLA offers an ideal location for using public transportation and at the same time reducing emissions from single vehicles

Together with Danish pioneer in sustainable furniture design and production, Mater, we have up-cycled 2.2 tons of ocean waste turned into 800 conference chairs

Impact report how does it work?

Our Impact report will display the emission calculations of your event, categorized into areas such as hotel overnight stay, food & beverage, and other factors including energy, water, chemicals, waste, and food waste. As ESG reporting becomes mandatory for all companies at a later stage, this report will simplify the process for you, making it easier to manage and submit.

We use Klimato for carbon calculations of your food today. In the Klimato software, we can calculate the carbon footprint of your menu items - based on ingredients, country of origin, production method and amount. Get information about how to reduce the carbon footprint in real time whilst creating recipes.

Conscious Conference Food waste

Step into the Villas Conscious Conference, where passion for conscious hospitality meets action against food waste.

Villa's experiences and stories about food waste.

- Non-severable bananas are frozen and repurposed for smoothies, a practice employed at Villa.
- Croissants unsold at Rug Bakery are filled with cream and adorned with toasted almonds, showcasing a creative way to reduce waste.
- Villa ensures that at least 95% of its food waste is processed in a Biogasmachine, generating new energy.
- Collaborating with the Copenhagen municipality, Villa diligently sorts all its trash, contributing to sustainable waste management practices.
- “The buns” left unsold at Rug Bakery are transformed into delectable treats filled with Arla Unika cheese, prosciutto, a hint of mustard, and lightly toasted, exemplifying resourceful repurposing.
- Rug Bakery's commendable efforts result in almost “Zero” food waste, as all leftover bread is transformed into breadcrumbs for reuse.
- Leftover scrambled eggs find new life as innovative products like Spicy Egg

- Bio trans system which sends food waste to be transformed to bio-gas

- Local suppliers in all Food & Beverage outlets

- Daily reporting of usage of electricity, heating, cooling, gas, waste, food waste, chemicals, towels & linen

CONSCIOUS CONFERENCE

PLAYROOM

With its versatile and vibrant features, the Playroom provides a dynamic space for meetings. Located on the ground floor with its own entrance and exit adjacent to the courtyard and bar T37,

Villa Square is located on the lower deck of the hotel

CONSCIOUS CONFERENCE

SQUARE

Square is the perfect venue for large conferences with options to create multiple spaces. Wow moments can be created more than once throughout the evening. The space also includes large LED screens for entertainment and light design equipment allows you to change the mood of the room. Square also comes with own entrance and exit, including large wardrobe options.

Villa Square is located on the lower deck of the hotel

- Maximum 1200 people

CONSCIOUS CONFERENCE

BOARDROOM

Remaining almost entirely in its original form dating back to 1912, the Boardroom is the perfect place for an intimate event. With respect for the original expression and with emphasis on the room's luxurious ambiance, newer designs have been created by Shamballa Jewels and their designer, Olga Krukovskaya.

The Boardroom is located on the 2nd floor and has a private bar.

- Maximum 30 people

CONSCIOUS CONFERENCE

STUDIOS

Discover our exclusive collection of 8 studio meeting rooms conveniently situated next to the square. Each room is meticulously designed to foster productivity and collaboration, offering a dynamic environment for your business gatherings. With state-of-the-art amenities and flexible layouts, our studios provide the perfect setting for meetings, workshops, and presentations.

- Maximum 42 people in one studio depending on the set-up
